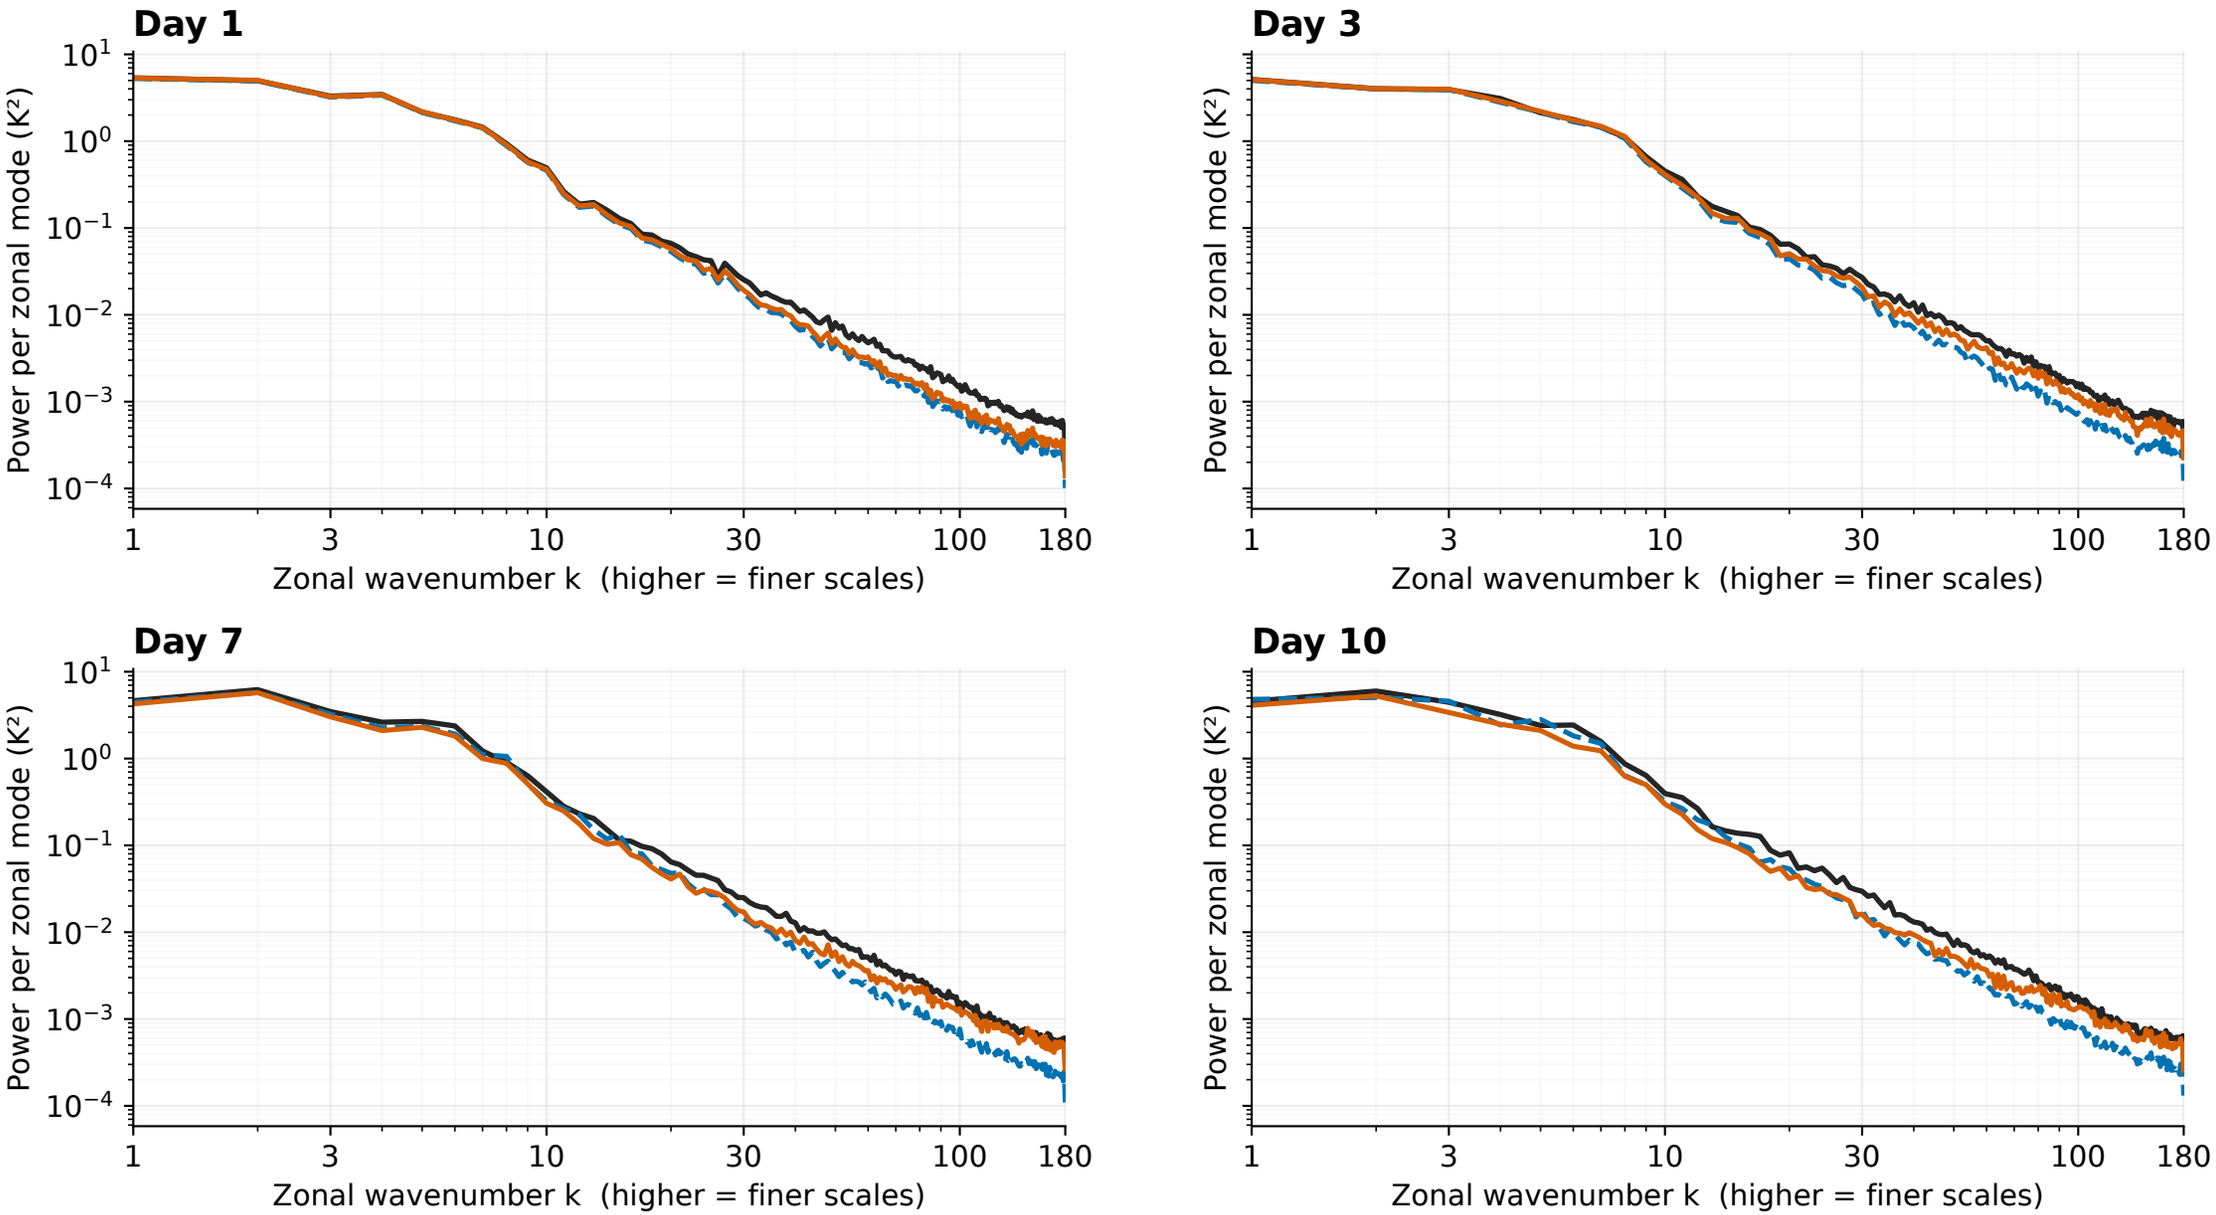
T850 power spectra: full AMSE vs GraphCast Small

Temperature at 850 hPa · 1° grid · Eight matched 2023 starts



Zonal Fourier spectra · 30–60° in both hemispheres · Cosine latitude weights · Mean power across starts

Cold forecasts · SWA at updates 500/1000/1500/2000 · GC baseline paired with AMSE · No spectral smoothing
