Complete checkpoint inventory: feedback

Candidate	GC loss %	RMSE %	Power error %	Joint cells	Safety	Eligible
mature_mse	13.14	4.70	-15.07	10/36	pass	no
feedback_sg_b8_step00100	2.39	1.01	-2.02	8/36	pass	no
feedback_differentiable_b8_step00100	4.25	1.63	-2.42	13/36	pass	no

All percentage columns are reductions versus GC; positive is better. Joint cells improve both physical RMSE and power error.
